D1 GRAND PRIX INDONESIA SERIES 3 & 4: GT RADIAL DRIFTERS HOLD THEIR GROUND AT IMX BSD

Imagine the heat a tire goes through when drifting. Now add uneven concrete blocks and a scorching sun into the mix, and you get one of the toughest conditions a tire can face. That was the reality at the D1 Grand Prix Series 3 & 4 Indonesia at IMX ICE BSD on October 11–12, where GT Radial drivers pushed their limits and delivered a standout performance.

Competing on a surface built from concrete blocks meant constant vibration, unpredictable grip, and zero room for error. Combine that with the intense heat radiating from the mid-day sun and you have a test that pushes both machine and driver to stay sharp. Despite the punishing conditions, GT Radial's racers

held their ground with confidence: Kingston, Rofbell, Reindy, Naufal, Andhika, and Billy all demonstrated strong control and adaptability throughout the race.

The highlight of the weekend came from Rofbell, who clinched 1st place in the Newgen category, showing remarkable composure and precision from qualifying to finals. Meanwhile, the crowd was treated to the presence of legendary Japanese drifter **Masato Kawabata**, whose mastery naturally carried him to the overall win and added an extra layer of excitement to the event.

The results reinforce how well GT Radial tires handle the extreme demands of drifting, from maintaining grip on inconsistent surfaces to staying stable under relentless heat. As the sport grows, GT Radial remains committed to supporting Indonesian talent and advancing tire technology built for the highest levels of motorsport.

Follow our journey and future events on GT Radial's social channels.

HYSTORI CELEBRATES ITS 3RD ANNIVERSARY WITH STRONG COMMUNITY ENERGY

The Hyundai Stargazer Owner Indonesia community celebrated its third anniversary with a warm and energetic gathering in Garut on 11–12 October 2025. A total of 138 participants joined the event, filling the atmosphere with stories, convoys, and the signature Hystori camaraderie that has been strong since day one.

Members from various regions came together to reconnect, showcase their Stargazer modifications, and take part in community activities, including lively family games. The two-day event proved that Hystori is more than just an automotive community. It is a place to build relationships, share experiences, and grow as one big family of Hyundai Stargazer owners.

OCTOBER 2025

GT Radial proudly supports and appreciates the spirit of communities like Hystori who continue to stay active and united. This aligns with our commitment to help drivers enjoy safer and more comfortable journeys with high-quality tires proudly made in Indonesia.

The celebration closed with a shared commitment among members to keep expanding the community, welcome new Stargazer owners, and strengthen a culture of safe and enjoyable driving.

GT RADIAL SUPPORTS TGRI'S PRECISION PERFORMANCE AT AUTHOKHANA SLALOM 2025 ROUND 4 IN PURWOKERTO

The fourth round of Authokhana Slalom 2025 brought excitement back to Purwokerto on October 18 at the GOR Satria Circuit. The event continues to draw attention thanks to its format, which demands precision rather than pure speed. Spectators could clearly see how drivers tackled a cone-packed course with clean, calculated maneuvers. This is where the essence of slalom comes through. The competition tests technical car control over a short and highly demanding layout, where even the smallest movement can affect the final result.

Amid the intense atmosphere, GT Radial returned as the official tire sponsor. Our official partner, Toyota Gazoo Racing Indonesia (TGRI), delivered a strong performance supported by two key

products: GT Radial GTX Pro and GT Radial SX-2. Both tires are engineered to deliver strong grip, quick steering response, and consistent stability. These characteristics are essential in slalom, where drivers must change direction repeatedly within seconds while keeping full control.

Every tight corner and sudden brake point served as a real-world test of tire capability. From the stands, it was clear how driver skill and tire performance worked hand in hand. The combination of precise handling and predictable tire characteristics kept the cars stable throughout the course.

Our support for TGRI goes beyond simply being present at the track. Each round gives us the opportunity to demonstrate how GT Radial's tire technology performs under real competitive conditions. From cornering performance to heat-to-heat consistency, we want participants to directly experience the innovation behind our products.

Our involvement in Authokhana and other automotive events reflects a simple commitment: GT Radial aims to grow alongside the community. By remaining consistently present in competitions and national automotive activities, we strengthen our position as an active, relevant brand that stays close to automotive enthusiasts across Indonesia.

GT RADIAL AT THE MANDALIKA FESTIVAL OF SPEED 2025 SUPPORTING THE INTENSE BATTLE OF THE SUBARU BRZ SUPER SERIES AHEAD OF THE FINAL

Mandalika once again took center stage in the automotive world on 19 October 2025 with the Mandalika Festival of Speed. Thousands followed the action throughout the day, including hundreds of spectators filling the circuit area to watch the highlight of the event: the Subaru BRZ Super Series. The atmosphere was electric from the morning, especially with the BRZ Super Series entering its fourth round and edging closer to the grand finale in the next race.

As the official tire partner for Mandalika and the Subaru BRZ Super Series, GT Radial continued to play a key role in ensuring the competition ran at a high-performance standard.

Every car in the BRZ category ran on GT Radial SX-R, a tire engineered to deliver optimal grip and maximum stability through Mandalika's fast corners. With a track layout that mixes long straights and demanding technical sectors, the tire becomes one of the most decisive factors shaping the drivers' speed and consistency.

The fourth round produced far more intense battles compared to the previous stages. BRZ drivers pushed harder, seizing every overtake opportunity, while the SX-R demonstrated its ability to maintain traction across shifting track temperatures. From the grandstands, spectators could clearly see how responsive the tire remained even as the pressure mounted toward the season's final stretch.

Through this collaboration, GT Radial aims to reinforce its commitment to supporting the growth of Indonesian motorsport in a tangible, long-term way. Mandalika isn't just a race venue—it's a proving ground where our products are tested in real competition. With one round left before the Subaru BRZ Super Series finale, the excitement continues to build, and GT Radial will remain present to power every key moment on track.

GT RADIAL MENDUKUNG PERAYAAN 7 TAHUN INDONESIA FORTUNER CHAPTER TANGERANG RAYA DI LEMBANG

Komunitas ID42ner Chapter Tangerang Raya merayakan ulang tahun ke-7 dengan semangat kebersamaan yang kuat pada 25–26 Oktober 2025. Berlokasi di Wood Forest Jayagiri, Lembang, acara dua hari ini menghadirkan rangkaian aktivitas yang tidak hanya seru tetapi juga bermakna bagi seluruh peserta.

Rombongan Fortuner memulai perjalanan mereka dengan touring menuju Lembang, menciptakan suasana konvoi yang tertib dan menyenangkan. Setibanya di lokasi, acara dilanjutkan dengan berbagai kegiatan komunitas mulai dari camping dan glamping hingga gala dinner yang mempererat hubungan antaranggota. Namun salah satu momen yang paling berkesan adalah kegiatan charity untuk anak yatim.

Inisiatif ini menunjukkan bahwa komunitas tidak hanya ada untuk bersenang-senang, tetapi juga hadir memberi dampak positif bagi masyarakat sekitar.

GT Radial kembali memberikan dukungan pada perayaan ini sebagai bentuk apresiasi terhadap komunitas yang telah tumbuh kuat dan solid selama bertahun-tahun. Bagi kami, komunitas seperti Indonesia Fortuner Chapter Tangerang Raya memiliki peran penting dalam memajukan budaya otomotif Indonesia. Mereka bukan hanya tempat berkumpulnya para pengguna kendaraan, tetapi juga wadah untuk saling membantu, berbagi pengalaman, dan berkontribusi ke lingkungan sosial yang lebih luas.

Kehadiran GT Radial dalam acara ini mencerminkan komitmen kami untuk mendukung komunitas yang memiliki nilai kebersamaan dan kepedulian. Kami bangga dapat menjadi bagian dari perjalanan panjang ini dan terus melihat bagaimana komunitas tumbuh, beradaptasi, dan memberi inspirasi bagi banyak pecinta otomotif lainnya.

Acara ulang tahun ke-7 ini bukan hanya perayaan, tetapi pengingat bahwa sebuah komunitas dapat menjadi ruang yang kuat ketika anggotanya saling mendukung dan memilih untuk memberi kembali kepada masyarakat. GT Radial senantiasa hadir mendampingi komunitas-komunitas yang dengan semangat yang positif.

GT RADIAL SUPPORTS THE 5TH NATIONAL JAMBOREE OF TERIOS CLUB INDONESIA IN LAMPUNG

The 5th National Jamboree of Terios Club Indonesia (TCI) took place on 25–26 October 2025, with Lampung hosting hundreds of participants from various regions. The two-day event delivered a mix of activities that strengthened community bonds while creating real value for the local area.

The program kicked off with a convoy to the venue — a tradition always anticipated as a symbol of togetherness within the Terios community's long journey. Upon arriving in Lampung, participants joined a local tourism promotion program to explore the region's potential, from culinary highlights to natural destinations that define the province's appeal. This activity not only enriched participants' experience but also helped introduce Lampung to a wider audience.

One of the main focuses of this year's Jamboree was driving safety education. With more than 300 participants attending, the session served as an important reminder of the principles of responsible and safe driving. The material was delivered in an easy-to-digest, engaging format, making it practical for everyday use.

GT Radial once again supported the 5th National TCI Jamboree as part of a long-standing collaboration built over many years. For us, communities like Terios Club Indonesia are key partners in fostering a positive, safe, and inclusive automotive culture. Our support goes beyond event participation — it reflects a commitment to grow alongside communities that have clear purpose and meaningful impact.

This year's celebration reinforced that TCI is not only a solid community but one that prioritizes education and social contribution. GT Radial is proud to be part of that journey and will continue supporting initiatives that strengthen Indonesia's automotive community.
