## **GT RADIAL COLORS THE ACTION OF SEADS SERIES 1 & 2 AT TARLAC CIRCUIT HILL, PHILIPPINES**

The South East Asia Drift Series (SEADS) Rounds 1 & 2 were successfully held at Tarlac Circuit Hill, Philippines, on December 6–7, 2025. This prestigious Southeast Asian regional drifting championship brought together top drifters from various countries to showcase their skills, consistency, and competitive mindset on the track. The highly competitive atmosphere and strong spectator enthusiasm made SEADS one of the most anticipated drifting series on the regional motorsport calendar.

Throughout the event, adrenaline-filled drifting action was presented through intense head-to-head battles that demanded precision, speed, and maximum vehicle control. Several display cars and competition cars were seen using GT Radial tires,

including Indonesian drifter Firo, who competed using GT Radial SX2 tires. The tires proved their capability by delivering optimal grip and high stability, supporting aggressive drifting performance on the challenging Tarlac Circuit Hill.

"GT Radial is one of the best tires used on several display cars and competition cars, including Indonesian driver Firo who uses SX2 tires," said a GT Radial representative. GT Radial proudly provided support for SEADS Rounds 1 & 2 as part of its commitment to strengthening GT Radial brand awareness in the motorsport world, particularly within the Southeast Asian regional drifting scene.

## **DAIHATSU KUMPUL SAHABAT MALANG 2025 WITH GT RADIAL STRENGTHENS COMMUNITY BONDS**

GT Radial Support Daihatsu Kumpul Sahabat Malang 2025 event was successfully held on December 7, 2025, bringing together Daihatsu communities from across Malang. The event served as a gathering platform that fostered togetherness through various community activities, entertainment, and exhibitions involving Daihatsu vehicle owners and enthusiasts. This occasion played an important role in strengthening relationships within the community while bringing brands closer to their customers.

At Daihatsu Kumpul Sahabat Malang 2025, GT Radial actively participated as part of the event program, demonstrating its commitment to supporting automotive community activities.

In addition, the event was enlivened by numerous local MSMEs, featuring culinary offerings and creative products showcased in the bazaar area. The involvement of local MSMEs added value to the event and highlighted its contribution to supporting the local economy.

As a closing note, GT Radial proudly supported Daihatsu Kumpul Sahabat Malang 2025 as part of its ongoing commitment to the automotive community. This support reflects GT Radial's efforts to strengthen engagement with vehicle user communities and to further enhance GT Radial's brand awareness within the Daihatsu community, which continues to grow and remain active across various regions.

## **ANNIVERSARY 5TH BMW CHAPTER BEKASI**

BMW Chapter Bekasi celebrated its 5th anniversary through the Anniversary 5th BMW Chapter Bekasi event, held in Bekasi on December 13, 2025. Carrying the theme "Celebrating 5 Years of The Ultimate Drive, Passion & Brotherhood", the event marked five years of togetherness, passion, and strong brotherhood within the community.

The celebration was enlivened by a series of exciting activities, including a Padel Competition that showcased sportsmanship, a Car Contest featuring outstanding BMW vehicles, and an energetic DJ Performance that created a vibrant and festive atmosphere for all participants and guests.

GT Radial proudly provided its support for this event to further develop GT Radial's brand awareness within the community, while strengthening positive collaboration between the brand and the automotive community.

## **GT RADIAL SUPPORTS CLASSY DRIFTING AT THE MANDALIKA CIRCUIT**

The Mandalika Driftcamp 2025 was successfully held at the Mandalika Circuit from December 12–14, 2025, bringing together drift enthusiasts from various communities to sharpen their drifting skills on an international-standard track. This event served as a dedicated platform for learning, practice, and performance development, while also showcasing the capability of GT Radial Champiro SX-R tires, which are specifically designed to deliver strong grip, stability, and precise control for drifting activities.

Despite challenging weather conditions during the event, including continuous rainfall, Mandalika Driftcamp 2025 continued smoothly. The wet track conditions became a real test

for both drivers and equipment, proving the reliability of GT Radial Champiro SX-R tires. "The rainy weather conditions proved that GT Radial Champiro SX-R tires are reliable in all conditions, even in the rain," shared one of the participants, highlighting the tire's consistent performance and confidence on slippery surfaces.

As part of its ongoing commitment to motorsport and automotive communities, GT Radial proudly supported Mandalika Driftcamp 2025. This support aims to strengthen GT Radial brand awareness, particularly for GT Radial Champiro SX-R tires, within the drifting community. Through this collaboration, GT Radial continues to play an active role in supporting community growth and the future development of motorsport in Indonesia.

## **EXPLORE BORNEO & IKN: ID42NER TOURING WITH GT RADIAL**

Event Explore Borneo & IKN Touring of the ID42NER Community was held in Tangerang on December 25, 2025 until January 03, 2026 as part of the community's end-of-year touring agenda 2025. This event served as a moment of togetherness for ID42NER members in preparing for a long-distance journey, with vehicles such as the Toyota Fortuner equipped with GT Radial Savero A/T Pro tires to support driving comfort and safety.

The touring activity was designed to face various road conditions, ranging from paved highways to more challenging terrain. One participant shared that the Toyota Fortuner using GT Radial Savero A/T Pro tires delivered stable performance and strong driving confidence throughout the journey, proving the reliability of GT Radial Savero A/T Pro tires for community touring needs.

As a form of support for the automotive community, GT Radial proudly provided support for this event to strengthen GT Radial brand awareness within the ID42NER community. Through the use of GT Radial Savero A/T Pro tires, GT Radial continues to demonstrate its commitment to supporting touring activities and fostering community togetherness across Indonesia.

## **FROM THE MANDALIKA ASPHALT: GT RADIAL TIRES PROVE THEIR QUALITY AT THE FESTIVAL OF SPEED**

The Mandalika Festival of Speed was successfully held at the Mandalika International Circuit from December 12–14, 2025, featuring a prestigious lineup of national racing categories including Agya OMR (One Make Race), Touring Car Race, and the Subaru BRZ Super Series. The event served as a competitive platform for top drivers while showcasing the high-performance capabilities of GT Radial Champiro SX-R tires, which were used across multiple race classes.

Challenging wet race conditions put both drivers and equipment to the test throughout the event. In these demanding circumstances, GT Radial Champiro SX-R tires demonstrated exceptional durability, delivering optimal grip, strong stability

under braking, and consistent control on the rain-soaked Mandalika circuit. This performance allowed drivers to maintain confidence and competitiveness despite the difficult track conditions.

Through its involvement in the Mandalika Festival of Speed, GT Radial proudly provided full support for the event as part of its ongoing commitment to the development of national motorsport. The presence of GT Radial Champiro SX-R tires not only reinforced their reliability on the racetrack but also strengthened GT Radial's brand awareness within the racing community, further solidifying the brand's position as a trusted performance tire in Indonesian motorsport.
