GT RADIAL AND CALSIC: FOSTERING ENVIRONMENTAL STEWARDSHIP FOR A SUSTAINABLE TOMORROW

On Sunday, January 21, 2024, the CALYA SIGRA CLUB (CALSIC) Chapter Jogja Istimewa, a vibrant community of Calya Siga users, will host a "TREE PLANTING AND FAMILY GATHERING" event at Pulesari Tourism Village, Sleman, Yogyakarta. This event transcends the notion of a casual day out, symbolizing a deep-rooted commitment to the well-being of our planet. In an act of collective responsibility, members will undertake a plastic waste collection initiative in the Taman Denggung Area, Sleman Regency. Equipped with gloves and eco-friendly bags, they are set to cleanse the Denggung Park Area of plastic pollution, reflecting a profound respect for our natural environment.

Heartily supported by GT RADIAL through its GoSaFe 'Love Your Life' campaign and with the zealous involvement of CALSIC Jogja Istimewa members (Chapter JOGIST), this occasion signifies an energetic commencement to the year's activities. It's envisioned that such endeavors will not only fortify the sense of unity within the community but also extend a helping hand to the wider society via GT RADIAL's tree-planting initiatives. Though these actions may appear small in scale, they exemplify the automotive community's sincere dedication to environmental conservation and its endorsement of the government's sustainable development goals (SDGs).

CALSIC and GT Radial, by marrying environmental care with community engagement, are laying the groundwork for a more sustainable future. This collaboration showcases how minor efforts, when pooled together, can make a substantial impact towards achieving global sustainability targets.
