**GT RADIAL WON VARIOUS
ACHIEVEMENTS IN MEIKARTA
MOTORSPORT FEST 2021.**

GT RADIAL WON VARIOUS ACHIEVEMENTS IN MEIKARTA MOTORSPORT FEST 2021.

GT Radial racers managed to win some impressive achievements at Meikarta Motorsport Fest 2021, held on 27-28 November 2021. The three motorsport race categories; Drifting, Slalom and Sprint Rally.

Emmanuelle Amandio, an international drifter, won the first podium in the Drifting category, with his Nissan Silvia S14.

In the Slalom category, Valentino Ratulangi became the A class & A1 class champion. The experienced slalom racer, who once won the title of National Slalom Championship entrusted his car with GT Radial Champiro SX2 and GT Radial Champiro GTX Pro to help achieve his best potential.

In the Sprint Rally category, Marrel SK, together with Beagle Jogja Rally Team also achieved a satisfactory result using GT Radial tires on a tarmac track. GT Radial Champiro SX2 has been proven to provide excellent grip on the track. However, this series was not entirely a tarmac track, this was why the Can Am, a car that excels on a dirt track, also used GT Radial Savero A/T Plus.

Congratulations to all the winners of Meikarta Motorsport Fest 2021.
