The graphic is a promotional poster for a webinar. At the top left is the Daihatsu logo with the tagline 'Daihatsu Sahabatku'. The main title 'NGOBROL Asik' is written in large, stylized letters, with 'Asik' in a cursive font. Below the title is the subtitle 'AGGRESSIVE VS DEFENSIVE DRIVING'. The date and time '19 SEPTEMBER 2020 16.00 WIB - 17.00 WIB' and the Instagram handle 'IG LIVE @DAIHATSUIND' are listed. The host 'ANNA WOZA' and the guest 'SONY SUSMANA' are shown with their names and titles. The GT Radial logo is also present. A red banner at the bottom right contains the text: 'GT Radial & Daihatsu Webinar About Safety Driving Aggressive VS Defensive Driving'. The background is white with colorful geometric shapes and a red sun-like graphic on the right.

Webinar About Safety Driving  
Aggressive VS Defensive Driving

Daihatsu and GT Radial once again held a Safety Driving event with the theme "Aggressive VS Defensive Driving" which was shown directly by all Daihatsu friends through the Instagram Live channel @daihatsuind account with the title Fun Chat on Saturday, September 19, 2020.

Sony Susmana, a Senior Instructor from SDCI (Safety Defensive Consultant Indonesia), was the source for the webinar, inviting and educating drivers to drive defensively and safely to avoid road accidents caused by aggressive driving style.

Aggressive driving is usually dominated by beginners who are generally young drivers who have unstable emotions and often 'show off'.

The characteristics of aggressive are; speeding at inconsistent speeds, zigzagging without giving any signals, rough accelerations and decelerations. Based on accident statistics in Indonesia, aggressive drivers have the highest accident rate of 55%.

To drive defensively on the other hand, is quite easy. Always think positively, tolerate, be polite, considerate, keep your vehicle in distance, control speed, emotions, driving time management, think safety for others.

### GT Radial Savero Komodo Becomes the Tire Choice for Nikita Mirzani

Nikita Mirzani, a national celebrity with her brother Edwin Agustinus Ray, made modifications to her late father's car in tuning garage. After waiting patiently for 4 months, the modification work was finally over.

They looked happy and relieved that the results were above their expectations. "More than expected! My late father's favourite car has been modified! I can't believe it!", Said Nikita.

When the new car cover was revealed and just showed the tire, they admitted that they liked it because GT Radial tires was their late father's favourite tire, the GT Radial Savero Komodo. Before working on this modification, the car tire was still using another brand.

This video has been watched nearly 700 thousand times on the official Youtube channel of Nikita Mirzani 'CrazyNikmirREAL' who has 3.55 million more subscribers!
